Tax consulting

This service is in the best hands, Fernando J. Arribas, CFO and co-founder of Cripto, along with his team, are experts in:

- **Tax return and assets.**
- **Tax return for non-residents**
- **Freelance counseling.**
- **Tax return for financial derivatives, digital assets and precious metals.**

Technological

Our computer engineering department team, led by our CTO Juan Gómez, along with the technology company Condato, with which Criptoro has already reached a partnership agreement, offers the following services:

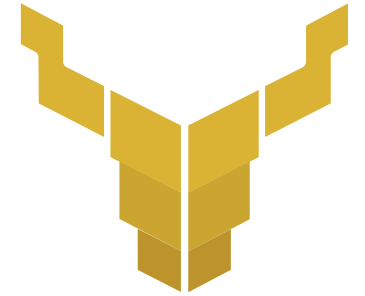

- **Custom software** development.
- **Development of your company's business** processes, we look for innovative solutions and ideas with new technologies as a thread.
- **Cloud Services**, we are experts in the latest cloud technologies, specialized in the design, development and unfolding of Serverless architectures with **Amazon AWS**, which allow scalability according to the needs with very, pay-per-use costs.
- **Experts in web and mobile application development.**

Digital marketing and web design

Our Criptoro team of digital marketing and web design department, along with the digital marketing and design company Agencia Portal 14, with which Criptoro has already reached a collaboration agreement, offers the following services:

- Exclusive **web design and development**.
- **SEO positioning** – SEM.
- **Corporate design**, we are in charge of enhancing your image and brand identity. Leave in our hands your logos, business cards, flyers, diptych, triptych, packaging, brochures, catalogs, advertising elements, corporate videos, prints, etc.
- **Advertising campaigns**, have greater visibility and thus increase your income
- **Sports Marketing...** we help you, being experts also in marketing focused on sports.

Forming work teams and leadership

This service, headed by Pedro Quintana, director of Criptoro's IEIC, our Companies and Innovation Institute, and expert in training work teams and network marketing, **is born in Criptoro to give answers to the detected need of those companies that have been born with a clear vocation for survival**, to help them project themselves successfully towards the XXII century in the fulfillment of their mission.

We are in charge of forming work teams, to achieve a collaborative and effective team work, always having as main goal the profit of all actions, through the implementation and introduction of work tools and methodologies which allow to develop the work of each person individually, and the work of the team as a whole, guarantee results.

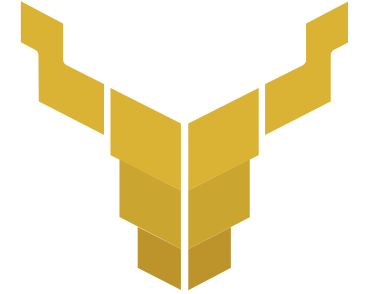

Advocacy

Criptoro offers specialized services in the legal consulting of **technological startups, fintech, data protection**, national and international **technological and corporate law**.

This is possible due to the partnership agreement that Criptoro has reached with Cysae-Abogados, where they also have experience in projects that remain within the regulatory scope, helping you too to obtain the necessary authorizations before **CNMV** or **BdE** (PFP, payment entity, ESI, aggregators, technology providers).

We are also civil and business lawyers, since we have collaboration agreements with renowned lawyers, to offer from Criptoro, these two important legal areas.

We want to be **your trustworthy lawyers**. Get in touch.

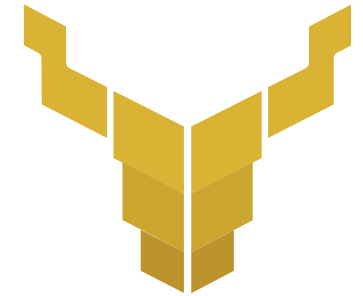

Outsourcing 360

Likewise, Criptoro also offers consulting and Outsourcing 360, specializing in small and medium-sized companies. Another differential feature is that we work with an ad hoc model, because we think that each company is unique and different. Some of the services offered are:

- **Communication:** design and development of the media plan, TV, radio, press, digital campaigns, billboards, Mupis, preparation of campaigns, design, purchase of media, measurement and analysis of results.
- **Technical translation:** translations of packaging, products, technical reviews, labels, brochures and POS material, etc. In many languages like Turkish or Arabic ...
- **Corporate social responsibility:** obtaining the accreditation of a socially responsible company. Monitoring of "sustainable development" objectives, UN 2030 agenda.
- **Data protection:** analysis, advice, maintenance and compliance with regulations.
- **Finance:** financial management, control strategy and cost adjustments.
- **Internationalization:** study and feasibility, administrative processes, definition and implementation of the Project.

Drone technology

Artificial Intelligence Applied to Technical Inspection and Environmental Control.

- Inspection of Infrastructures and buildings
- Inspection of energy production facilities (photovoltaic plants, thermal and nuclear power plants, wind farms)
- Precision Agriculture, analysis and prescriptions
- Control of environmental areas (forests, river banks, coasts, pollution)
- Census of protected animal species
- Control of hunting farms, census of pieces and surveillance

All this done with high autonomy equipment, multi-pectral sensors, thermography and the best dedicated software on the market.

- Obtaining images for Loss Expertise (industrial and agricultural)
- Assessment of catastrophic areas (agricultural and environmental)

To end the presentation of CRIPTORO, we would also like to inform you:

We are a global partner of physical metals. We already have clients in several countries on two continents (Europe and Asia) and we will continue to grow with the sale of gold, silver, platinum and palladium worldwide.

You can also buy metals through CRIPTORO

✓ Economical purchase price

From the first euro, you will buy parts of ingots up to 15% cheaper, with a level of quality and purity (LBMA) that is audited and certificated.

✓ Fast delivery

At any time, starting at 1 gram, guaranteed shipping with online tracking by security and custody companies of international precious raw materials. (currently, there are agreements with the international companies Brinks, Loomis and Prosegur).

✓ High resale price

Sell online at any time your reserve of precious metals at FIX value, the only market that regulates the price of LBMA raw material.

✓ 100% Ownership

During storage, you will be automatically assigned ingots with identifying numbers to legitimate the ownership of the ingot or the part that corresponds to you.

✓ External Audit

Regular controls by an independent auditor (Muller) who is responsible for the supervision of the German Finance Ministry. Every day an inventory list is published online.

**Protect your assets
and save with Criptoro!**

Tax benefits

In the case of storage, the purchase of gold, silver, platinum and palladium are exempt from VAT.

- ✓ **100% buy-back guarantee** for your precious metals stored in the armoured safe.

iBuy

PHYSICAL GOLD AND SILVER acquire tangible goods now!

All custody of precious metal will be carried out by security companies and will take place in bimonthly audited vaults.

Brinks, is the specialist in security and securities transport services, being one of the largest security companies in the world. Brinks offers its services in more than 50 countries and is the company used for this purpose.

The precious metal will be guarded in Loomis, the largest gold storage company in the world.

Physical Gold and Silver

INSURANCE

All risk "Anyone Occurrence"
of 50 million euros per deposit
(in stay).

Maximum security

- ✓ **High-security armored safes**, certified and recognized by the LBMA (The Global Authority for Precious Metals).
- ✓ **Certified quality standard:** ingots with minted numbers from manufacturers certified by LBMA.

Criptoro Physical Gold and Silver

At Criptoro, as an Auvesta partner, one of the world's largest physical precious metals suppliers, we are agents who specialize in buying, selling, changing and storing gold on a global scale.
